Press Release:

### Foreign Exchange Reserves at the Bank of Israel, February 2026

Israel's foreign exchange reserves at the end of February 2026 stood at \$234,553 million, an increase of \$1,511 million from their level at the end of the previous month. The level of the reserves relative to GDP was 38.2 percent (Figure 1).

The increase was mainly the result of a revaluation<sup>1</sup> that increased the reserves by approximately \$1,739 million, which was offset by the government's foreign exchange activities totaling approximately \$271 million.
